

## **CONTAINS NON-PLANT-FOOD INGREDIENTS**

## **Active Ingredients**

16% Poly(oxy-1,2-ethanediyl), α-sulfo-ω-hydroxy-, C6-10-alkyl ethers

7% Sodium bis(2-ethylhexyl) sulfosuccinate

77% Inert Ingredient (water)

Density: 8.45 lbs/gal at 68°F

# KEEP OUT OF REACH OF CHILDREN

CONTENTS	
Volume	Weight
☐ 1.0 Gal. (3.7 L)	8.5 Lbs. (3.8 kg)
2.5 Gal. (9.4 L)	21.1 Lbs. (9.6 kg)
5.0 Gal. (18.9 L)	42.3 Lbs. (19.2 kg)
30.0 Gal. (113.5 L)	253.5 Lbs. (115.4 kg)
55.0 Gal. (208.2 L)	464.8 Lbs. (211.6 kg)
260.0 Gal. (984.2 L)	2197.0 Lbs. (1000.1 kg)

#### WARNING

Irritant to eyes, skin, and ingestion.

Use proper gloves and goggles when handling and wash hands before touching eyes or eating.

Dispose of contents/container in accordance with local/regional/national and international regulations.

Get medical advice/attention if you feel unwell

#### **GENERAL INFORMATION**

TFAIR is a non-phytotoxic soil wetting agent designed to improve water movement into native soils at cost-effective low rates. TFAIR facilitates the movement of water into the soil allowing for the even distribution of moisture, air, and nutrients in the rootzone. Apply TFAIR throughout the growing season on golf courses, athletic fields, and residential or commercial turf.

#### **DIRECTIONS FOR USE**

TFAIR can be applied throughout the growing season to prevent hydrophobic soil conditions and to conserve water. Applications of TFAIR work best if applied to turfgrass before the onset of localized dry spot or drought stress. TFAIR does not need to watered in immediately. After application leave mower baskets off until TFAIR is adequately watered into the depth of your turf's rootzone.

#### SPRAY APPLICATIONS

Application Rate	Interval
0.5 – 1 oz per 1000 ft2	Monthly (up to every
(1.5 – 3 lt/ha)	2 weeks as needed)

Monthly application rates can be divided into weekly or biweekly applications if desired. Combining applications with foliar-applied nutrients or other turfgrass products is encouraged as TFAIR helps uniformly distribute turf-applied products into the plant and soil.

# APPLICATION BY INJECTION

Application Rate	Interval
20 – 40 oz per acre	Monthly (up to every
(1.5 – 3 lt/ha)	2 weeks as needed)

TFAIR can be injected through an irrigation system to achieve water savings and to improve the even distribution of applied water and chemicals into the soil. Monthly rates can be applied in split applications.

#### TANK MIXING

TFAIR is compatible with most turfgrass products including fertilizers, herbicides, insecticides and fungicides. Before applying TFAIR with a new tank-mix partner, perform a jar test to evaluate tank mix compatibility and apply to a small turfgrass area to determine its effect on turf quality.

### PRECAUTIONARY STATEMENTS

- Overexposure causes eye irritation, excessive watering, redness
- Overexposure to skin may cause itching and redness
- Harmful if swallowed. May cause diarrhea, nausea and vomiting.
- Wear approved eye protection and clothing
- Keep out of reach of children

#### IN CASE OF CONTACT

EYES: If eye exposure occurs, wash with water for at least 15 minutes. See a physician.

SKIN: Eye and skin irritant. Wash skin and clothing thoroughly with water after exposure.

INGESTION: Contact physician or poison-control center. If victim is conscious and able to swallow, quickly give milk or water to dilute. Do not give sodium bicarbonate, vinegar, or fruit juices. Never give anything by mouth if victim is unconscious or having convulsions. Induce vomiting only upon advice of a physician.

## STORAGE AND DISPOSAL

Do not contaminate water, food or feed. Store in an approved facility out of reach of children or unauthorized personnel. Store in original container. Dispose of unused contents according to RCRA and all applicable national and local government regulations. Containers may be disposed of after thorough rinsing and offered for recycling or reconditioning or disposed of according to approved national and local regulations. Do not reuse empty containers.
